Your Tractor's Best Friend

SIROMER LOADER ATTACHMENT

(Suitable for Siromer Loaders B801, B821, B831, B841)

Lift Capacity

400 kg

The Siromer Loaders can be fitted with either a Pallet Fork or Bale Spike Attachment. The pallet forks have adjustable tine width and are ideal for carrying pallets up to a maximum weight of 400kg with the parallel lift Siromer Loaders.

The Bale spike comes complete with 3 tines

The Siromer Loader Attachment is intended for use with small bales and weights within the capabilities of the tractor and with due consideration of the terrain and operating conditions. When operating within the limits of the tractor it is advisable to use rear ballast, either water ballast the wheels or additional weight on the 3 point linkage.
