FLAIL MULCHER

A powerful reversible flail mulcher designed for front or rear mounting capable of pulverising 40mm thick material. Ideal for mulching grass, bracken, brambles and any other overgrown vegetation, the implement can function in both directions of PTO rotation. It boasts a robust steel frame and an electronically balanced rotor mounted on fully enclosed, self-aligning bearings. The belt transmission is driven by an oil bath bevel gearbox with freewheel and the rotor benefits from a helical arrangement of blades to evenly distribute the workload.

| Size | Width | Weight | Power | Hammers |
|------|--------|---------|----------|---------|
| 2.2m | 2287mm | 570 kg | 50-90hp | 20 |
| 2.4m | 2387mm | 646 kg | 60-75hp | 20 |
| 2.6m | 2687mm | 825 kg | 85-130hp | 22 |
| 2.8m | 2787mm | 945 kg | 90-130hp | 24 |
| 3.0m | 2987mm | 1150 kg | 90-130hp | 26 |
